## Temporary Food Establishment Operations

# Are You Ready?

Use this guide as a checklist to verify compliance with MA food safety regulations.

☐ Application	Submit a completed temporary food establishment application to the Local Board of Health a minimum of 30 days prior to the event.
FOOD & UTENSIL ST	DRAGE AND HANDLING
☐ Dry Storage	Keep all food, equipment, utensils and single service items stored above the floor on pallets or shelving, and protected from contamination.
☐ Cold Storage	Keep potentially hazardous foods at or below 41°/45°F. An effectively insulated container with sufficient coolant may be approved by the board of health for storage of less hazardous foods, or use at events of short duration.
☐ Hot Storage	Use hot food storage units when necessary to keep potentially hazardous foods at or above 140°F.
☐ Thermometers	Use a food thermometer to check temperatures of both hot and cold potentially hazardous food.
☐ Wet Storage	Wet storage of canned or bottled non-potentially hazardous beverages is acceptable when the water contains at least 10 ppm of available chlorine and the water is changed frequently to keep the water clean.
☐ Food Display	Protect food from customer handling, coughing, or sneezing by wrapping, sneeze guards or other effective barriers.
	Post consumer advisories for raw or undercooked animal foods.
☐ Food Preparation	Food employees must use utensils, disposable papers, disposable gloves or any other means approved by the board of health to prevent bare hand contact with ready-to-eat food.
	Protect all storage, preparation, cooking and serving areas from contamination.
	Obtain food from an approved source. Potentially hazardous foods and perishable items may not be prepared in residential kitchens.
PERSONNEL	
☐ Person in Charge	There must be one designated person in charge at all times responsible for compliance with the regulations. Check with your local board of health for food protection management certification requirements.
☐ Handwashing	A minimum two-gallon insulated container with a spigot, basin, soap and disposable towels shall be provided for handwashing. The container shall be filled with warm water 100° to 120°F. A handwashing sign must be posted.
☐ Health	The person-in-charge must tell food employees that if they are experiencing vomiting and/or diarrhea, or have been diagnosed with a disease transmissible through food, they cannot work with food or clean equipment and utensils. Infected cuts and lesions on fingers or hands must be covered and protected with waterproof materials.

		Food employees must have clean outer garments and effective hair restraints. Tobacco usage and eating are not permitted by food employees in the food preparation and service areas.
CL.I	EANING AND SANITI	ZING
	Warewashing	A minimum of three basins, large enough for complete immersion of utensils and a means to heat water are required to wash, rinse and sanitize food preparation equipment that will be used on a production basis.
		The board of health may require additional sets of utensils if warewashing sinks are not easily accessible.
	Sanitizing	Use chlorine bleach or other approved sanitizers for sanitizing food contact surfaces, equipment and wiping cloths.
	Wiping Cloths	Store wet wiping cloths in a clean 100ppm chlorine solution. Change frequently.
w,	TER	
	Water Supply	An adequate supply of potable water shall be on site and obtained from an approved source. Water storage at the booth shall be in approved storage containers.
	Wastewater Disposal	Dispose of wastewater in an approved wastewater disposal system. An adequate number of covered containers, labeled "Wastewater" shall be provided in the booth.
PK	EMISES	
	Floors	Unless otherwise approved, floors shall be constructed of tight wood, asphalt, or other cleanable material. Floors must be easily cleanable.
	Floors	material. Floors must be easily cleanable.  Walls and ceilings are to be of tight and sound construction to protect from entrance of
	Floors  Walls & Ceilings	material. Floors must be easily cleanable. # Information and Instructions

Massachusetts General Laws chapter 152 requires all employers to provide workers' compensation for their employees. Pursuant to this statute, an *employee* is defined as "...every person in the service of another under any contract of hire, express or implied, oral or written."

An *employer* is defined as "an individual, partnership, association, corporation or other legal entity, or any two or more of the foregoing engaged in a joint enterprise, and including the legal representatives of a deceased employer, or the receiver or trustee of an individual, partnership, association or other legal entity, employing employees. However, the owner of a dwelling house having not more than three apartments and who resides therein, or the occupant of the dwelling house of another who employs persons to do maintenance, construction or repair work on such dwelling house or on the grounds or building appurtenant thereto shall not because of such employment be deemed to be an employer."

MGL chapter 152, §25C(6) also states that "every state or local licensing agency shall withhold the issuance or renewal of a license or permit to operate a business or to construct buildings in the commonwealth for any applicant who has not produced acceptable evidence of compliance with the insurance coverage required." Additionally, MGL chapter 152, §25C(7) states "Neither the commonwealth nor any of its political subdivisions shall enter into any contract for the performance of public work until acceptable evidence of compliance with the insurance requirements of this chapter have been presented to the contracting authority."

#### Applicants

Please fill out the workers' compensation affidavit completely, by checking the boxes that apply to your situation and, if necessary, supply your insurance company's name, address and phone number along with a certificate of insurance. Limited Liability Companies (LLC) or Limited Liability Partnerships (LLP) with no employees other than the members or partners, are not required to carry workers' compensation insurance. If an LLC or LLP does have employees, a policy is required. Be advised that this affidavit may be submitted to the Department of Industrial Accidents for confirmation of insurance coverage. Also be sure to sign and date the affidavit. The affidavit should be returned to the city or town that the application for the permit or license is being requested, not the Department of Industrial Accidents. Should you have any questions regarding the law or if you are required to obtain a workers' compensation policy, please call the Department at the number listed below. Self-insured companies should enter their self-insurance license number on the appropriate line.

#### City or Town Officials

Please be sure that the affidavit is complete and printed legibly. The Department has provided a space at the bottom of the affidavit for you to fill out in the event the Office of Investigations has to contact you regarding the applicant. Please be sure to fill in the permit/license number which will be used as a reference number. In addition, an applicant that must submit multiple permit/license applications in any given year, need only submit one affidavit indicating current policy information (if necessary). A copy of the affidavit that has been officially stamped or marked by the city or town may be provided to the applicant as proof that a valid affidavit is on file for future permits or licenses. A new affidavit must be filled out each year. Where a home owner or citizen is obtaining a license or permit not related to any business or commercial venture (i.e. a dog license or permit to burn leaves etc.) said person is NOT required to complete this affidavit.

The Office of Investigations would like to thank you in advance for your cooperation and should you have any questions, please do not hesitate to give us a call.
